- **Mar. 28**  • Registration begins grades 9-12
  • BB Southside (H) 5:00

**Baseball seniors Eric Mosure, Maxson Cox, Michael Shea, Bryce Barlow, and Racee Redland**

People ask me what I do in winter when there’s no baseball. I’ll tell you what I do. I stare out the window and wait for spring.

—Roger Hemby

---

Barlow practices baseball every day. “I am looking forward to seeing how good we will be in baseball this year. I have a feeling that we will see some people,” says Barlow. He is going to Ole Miss to major in accounting. Barlow will try to play baseball in college. He says he will miss the sports most of all at high school.

“My practice baseball almost everyday,” says Mosure. This year he looks forward to winning twenty or more games. Mosure is planning to go to college, but he is undecided in where he wants to go or to major. He says he will miss seeing his friends every day at school. What Mosure means by “friends being a senior is that he doesn’t do much of anything. He is involved in Student Government Association, DECA, and Botball Community Service Club.

Bryce Barlow is on his third year of playing baseball. “The whole atmosphere of the game is my favorite part. There is nothing like it,” says Barlow. “It has been running and losing. My family just signed me up when I was three and I ended up loving the game and loved it.”

“Being pretty good and loved it,” says Barlow. “I even enjoyed taking pictures.”

The most inspirational part of MCHS for Barlow has been working with Jesse Robbins. The part of MCHS that has impacted his life most is his welding class. In the fall, Kiestler says he would like to attend Cramp’s Technical Center to study welding.

Erika Ferril says, “When I heard I had an interview for National Technical Honor Society, I was surprised, but I didn’t do a whole lot to prepare for it. I figured I’d just be myself. I feel very privileged to be chosen for NTHS.” Ferril is also a member of the National Technical Honor Society Students of America and Family and Career Community Leaders of America.

“I’m doing photography for my senior project,” Ferril says. “I figured I’d just be myself. I feel very privileged to be chosen for NTHS.” Ferril is also a member of the National Technical Honor Society Students of America and Family and Career Community Leaders of America.

“My senior project is on skydiving. My mentor is an instructor at West Tennessee Skydiving and I have been going there couple of weekends and finally made my first jump this past Saturday,” says Kiestler. “I knew what I wanted to do until I met Mrs. Finlayson, my accounting teacher. He helped Barlow to train in Ole Miss and major in accounting.

Senior Justin Kestler says, “I feel very honored to be chosen for National Technical Honor Society. For the interview, I didn’t really know what to expect. I didn’t prepare for it, but it all went good.” For his senior project, Kestler is raising Bobwhite Quail with his mentor, Mark Smith. The thing Kiestler says he has enjoyed most in high school is all of his vocational classes.

James Kiser says he feels “very excited and honored” after hearing about getting an interview for NTHS. “I’ve been spending at least one hour a day in the gym with my mentor, I absolutely love it!” says Kiser. The most inspirational part of high school for Kiser has been working with Donna Robbins. The part of MCHS that has impacted his life most is his welding class. In the fall, Kiser says he would like to attend Cramp’s Technical Center to study welding.
